Hi all,

I have something Mary and I worked on for Kim's one-on-one with Sam R. Mary and I will work on this now and get back to you.

Thanks,
Amy

Hi ladies,

Please see Kim's note below. Does someone have an answer to this? Is Kim referring to the same google doc that has the draft holding statement for Toki?

Thanks!

Amy

Statement: Tokitae (Lolita) is a 56 year old captive whale from the endangered Southern Resident

killer whale population. While Tokitae has spent most of her life in captivity, she holds great importance to the Lummi Nation and everyone else working to recover Southern Resident Killer whales in the Pacific Northwest. More information about Tokitae (Lolita) and her inclusion in the [Southern resident killer whale ESA-listed population](#) is available here [on our website](#).
